

# An Environmental Action Project

**The Task:** To **identify, research, investigate and present recommendations** about a **local environmental issue**.

## What to do:

- ✪ Research a local environmental issue.
- ✪ Students may work individually or in groups of no more than 3.
- ✪ Set about investigating and resolving the problem.
- ✪ Choose the medium to present your project.  
It could be a poster, board game, research project or a video.
- ✪ A Scientific Notebook must be kept and submitted with the entry.

## Themes for an action plan:

- Clean water/environment
- Recycling
- Beach issues (erosion, pollution)
- Protection of living things
- Future Earth issues
