

# Curriculum Overview

## Year 4 - Term 2

## English

This term students will consolidating their knowledge of both persuasive text and narrative. They will write a persuasive text as well as a narrative for assessment. The persuasive text will have an added feature of the students videoing each other to present to the class. The narrative will also have a digital aspect and will be connected to their specialist digital technology lessons.

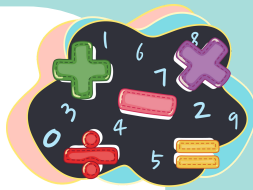

## Science

In Science students will investigate how Forces can be exerted by one object on another through direct contact or from a distance.

Students will collect and record data, identify a focus question and variables in a fair test and represent findings in a variety of ways.

## Maths

This term, students will continue to develop a range of strategies to understand number and place value. Students will use problem solving strategies to model, compare and represent numbers, in different ways by using skills including partitioning, modelling, and ordering. Students will learn how to represent fractions in different ways and as decimals.

## HASS

Students will develop an understanding of the rules in our community and will be able to explain the importance of making decisions fairly and as part of a community. Students will ask questions, collect information, and identify conclusions based on their collaborative work together
